

## IoT Gateway (BLE)

This IoT Gateway receives BLE Beacons or BLE Mesh Network data and transmits to the cloud server via LAN, Wi-Fi or 3G/4G cellular (optional). It is specifically designed for harsh outdoor environments.

### Applications

- Construction
- Manufacturing
- Oil & Gas
- Logistics
- Hospitality
- Healthcare
- And many more...

<b>Product</b>	BLE-based IoT Internet Gateway
<b>Model Name</b>	IoT Gateway (BLE)
<b>Network Connectivity</b>	802.11 b/g Wi-Fi, LAN, 3G/4G Cellular (optional)
<b>BLE Connectivity</b>	BLE Mesh
<b>Cloud Connection</b>	Configurable to transmit data to any MQTT Server.
<b>Input Voltage</b>	110-220V AC
<b>Ingress Protection</b>	IP65.Dustproof
<b>Size (HxWxL)</b>	23.5x10.5x16.5 cm 9.25x4.13x.6.50 in
<b>Color</b>	Light Grey
<b>Material</b>	ABS Plastic
<b>Attachment Method</b>	Screw
