UFO Tag

Active Tag with Motion + SOS Button

This BLE Tag can be used as a Beacon or in a BLE Mesh network. With its built-in motion sensor, it can register fall detection event and immediately report to the server. A user can also press on its SOS button to report an incident or ask for help. This device is ideal for People safety at work, schools, hospitals, home and retirement facilities.

Application:

- **Workforce Management**
- **Event Attendees**
- **Asset Tracking**
