Transforming the way industries work

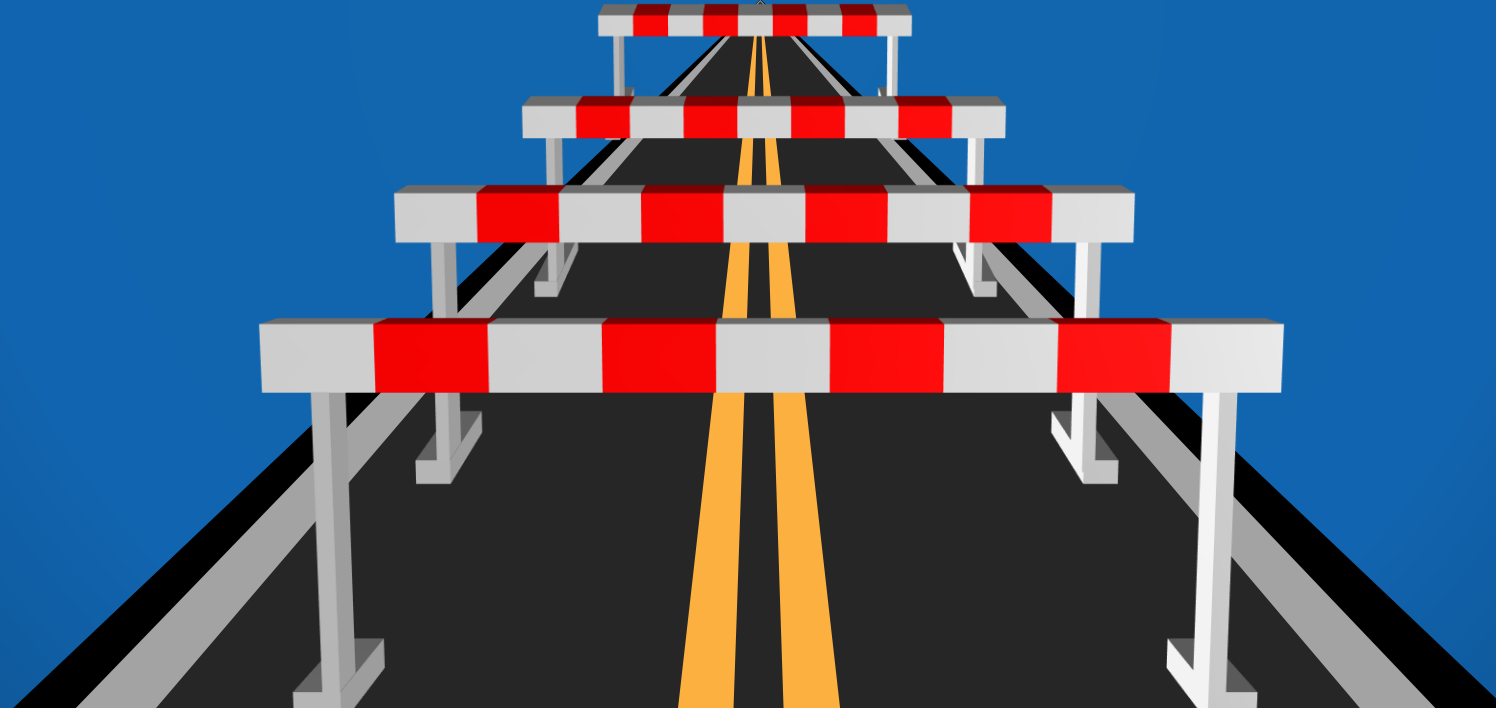

**We Make Your Digital Transformation
Migration Effortless!**

We Make Your Digital Transformation Migration Effortless!

There are significant challenges associated with achieving digital transformation goals.

Through our vast experience of implementing many projects, we know how to tackle every one of them.

Greatest obstacles to achieve digital transformation goals:

- High risks and high costs.
- Complexity of implementing new technology.
- Insufficient support/capabilities.
- Lack of in-house resources and skills.
- Resistance to change.
- Reliance on legacy applications.
- Long duration for implementation.

Overcoming Challenges

We clearly understand these difficulties and the hesitation with migrating to digital transformation. We feel your pain!

After all, a digital transformation's objective is to help you reduce costs and complexity while achieving increased accuracy and operational velocity. It should never be a burden to your organization.

“We make Digital Transformation simple & affordable”

This motto has been at the forefront of everything we do at Dominate SmartSite. Our exclusive IoT focus and extensive experience have led us to strive continuously, making our systems simple to use and affordable.

Our products are field-tested and have proven to be the most robust, feature-rich, flexible and easy to use systems.

We manufacture both IoT hardware and software solutions. By owning the entire ecosystem, we have been able to achieve magical results at minimum costs. Our complete end-to-end solution alleviates you and your organization from the headache of dealing with multiple vendors.

Digital Transformation at absolutely no risk

In response to these challenges, we have created innovative plug & play solutions that are considered the tipping point in affordability and simplify digital transformation implementation.

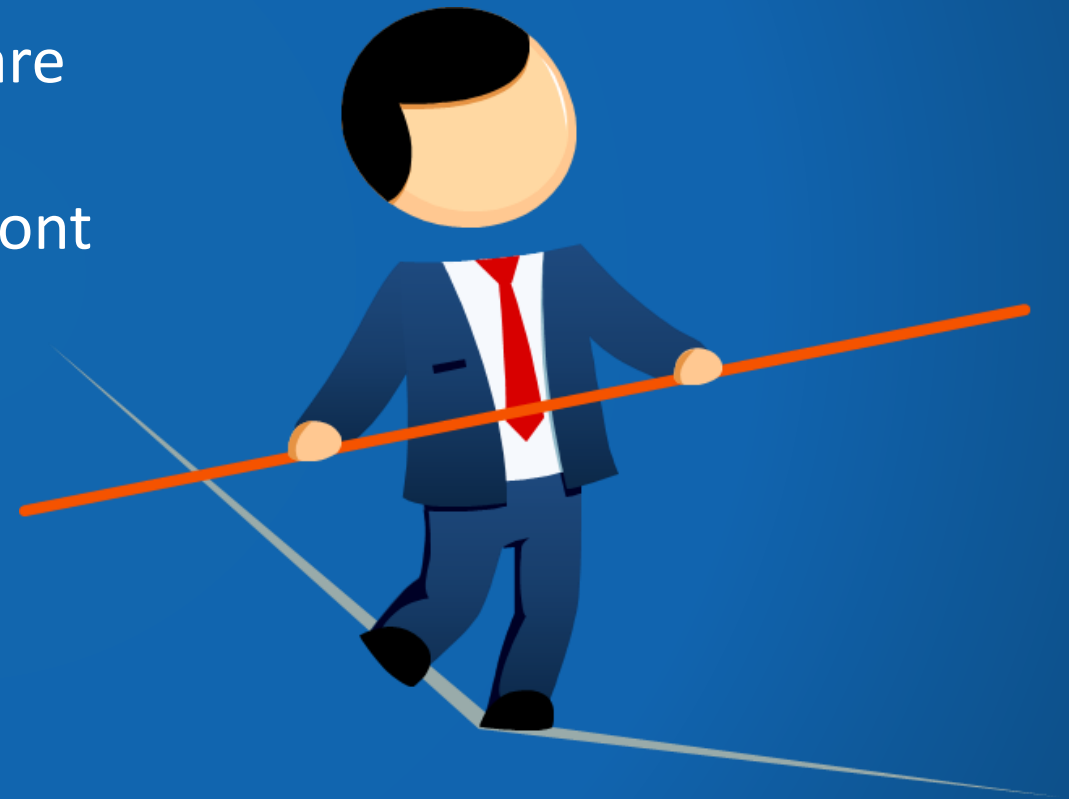

Key System Features

- End-to-end IoT solutions or enable your existing application(s) with IoT.
- SaaS or on-premise installations.
- Technology agnostic.
- Plug & play, pre-configured and ready to go IoT hardware.
- Quick DIY hardware installation and expansion.
- Quick learning curve with minimal operational disruptions.
- Mobile-enabled (iOS & Android).
- End-to-end security.
- Scalable for companies of any size.

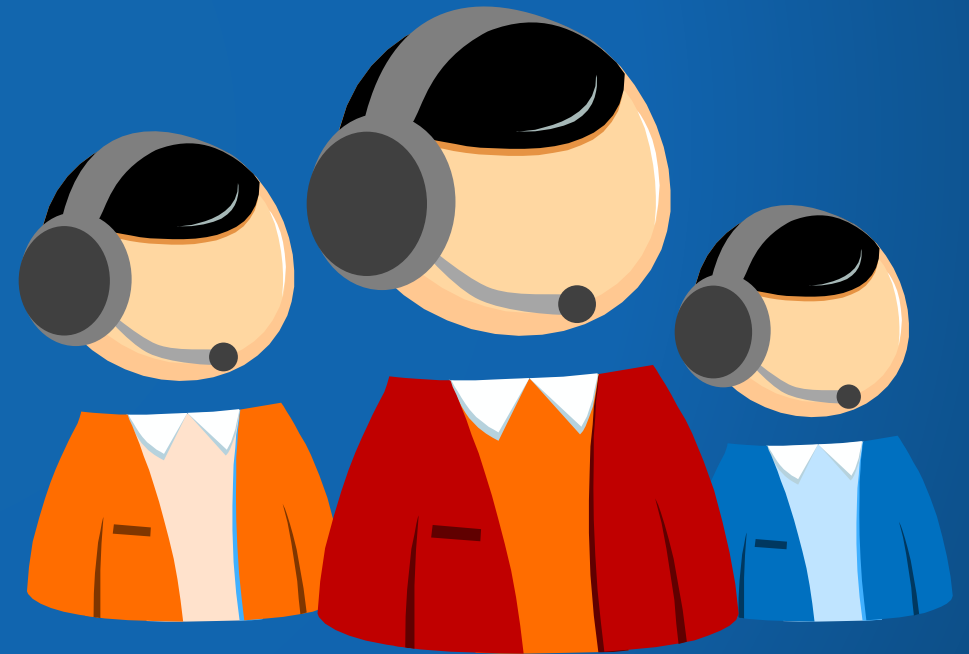

Zero Investment & Risks

- Low-cost bundled hardware & software monthly subscriptions.
- Accelerate time to value with no upfront costs or CAPEX.
- No long-term contract.

Worry-free Support

- Online knowledge base access.
- Remote dedicated consultants.
- On-site full-time dedicated consultants.
- Data migration.

If you don't achieve a quick ROI, simply remove the hardware and return it back to us. No penalty, no hassle.

You are going to love it. We promise!

Digital Transformation at absolutely no risk

The most comprehensive solutions to enhance your operation's performance with minimal risk and cost.

- Smart Maintenance Management (CMMS)
- Smart Asset Management
- Smart Workforce and Productivity Management
- Smart Environment Monitoring
- Smart Machine Monitoring

Smart Site Platform

Take the Dominate path
to transform your operation today!
Simple to use, simple to maintain.
No barriers. No complications.
